

International Students Programs

Ethan Van Mullem

Submitted by Jing Liu

Ethan has been involved as a participant and a leader in the Ambassadors Program at SBCC - organizing events and providing a welcoming environment for international students (and the SBCC community). He dedicates himself to the mission and values, seeks out increasing responsibilities within the program, and always shows up with a positive attitude, all the while doing it with a superb academic record. Furthermore, he studied abroad twice with SBCC – in Tokyo and Paris – and intentionally explores new cultures and paradigms in both his academic and personal life. Ethan is a true global citizen!
